KENTS CAVERN

Kents Cavern is one of the most important Stone Age sites in Europe.

On your visit you'll go back to a time when the cave was home to ancient humans, sheltering from extreme weather, making fires, shaping tools and hunting Ice Age animals. As you walk through the extensive labyrinth of caverns, you'll be surrounded by 400 million-year-old rocks and spectacular stalagmites and stalactites.

In 2007 the English Riviera was designated as a Global Geopark by UNESCO, one of only nine in the entire UK and 140 in the world!
